CS 215 Lab Assignment 7

1. Faculties to Degrees (one to mandatory many)
   **Reason:** there are many degrees within each faculty but the degrees only belong to one faculty

2. Degrees to Classes (one to mandatory many)
   **Reason:** each degree requires several classes to be taken while each class doesn't require several degrees

3. Classes to Students (many to optional many)
   **Reason:** each student has to take many classes toward their degree while each class doesn't necessarily have to have many students

4. Students to Instructors (mandatory many to one)
   **Reason:** each instructor has many students while every student only has one instructor

5. Instructor to Classes (one to one)
   **Reason:** each class has an instructor while each instructor has a class
